# What is “sazameki”?

An audio processing library.

Some features are still in development. (Sorry...)

- WAV file I/O
- Waveform generation
- Filter/Effect processing

- Analyzing (ex. FFT)
- GUI parts (ex. Knob)

 Future plans

# How to Use?

Please see samples in the repository.

SVN Repository

**<http://www.libspark.org/svn/as3/sazameki/>**

Currently, working hard at FlashPlayer 10 ver.

**<http://www.libspark.org/svn/as3/sazameki/branches/fp10/>**

# Demo

I used sazameki for the work-in-progress music instrument called “ANO GAKKI” (that instrument).

“ANO GAKKI”:

A contemporary instrument that appears in a concept movie posted at Nico Nico Douga. One key feature is a touch panel like interface.
